Pedestals

The Accent pedestal case is constructed of particle board veneered on both sides, 3/4" thick. Full bottom ensures rigidity. Accent 1 drawer interiors are lacquered genuine oak veneer, Accent 2 and Passport drawer interiors are simulated oak. Drawers feature five-sided construction, allowing for easy removal of drawer fronts.

All desk box drawers include an adjustable divider. Every Accent 1 desk includes a carved solid oak pencil tray. Every Accent 2 and Passport desk includes a molded plastic tray. Molded plastic trays are standard for one box drawer in mobile pedestal and in 30" or 24" deep movable pedestal inserts. Box drawer operates on 3/4 extension, ball bearing slides.

File drawers are high sided and operate on full extension progressive ball bearing slides. Each file drawer includes suspended file supports that accommodate letter and legal size hanging folders.

Lateral files

Construction similar to file drawers, complete with high sides and suspended file supports that accommodate letter and legal size hanging folders.

All lateral file units have one front lock to lock all drawers. Where indicated, units have an interlocking system which will allow only one drawer to be opened at a time.

Credenza / Hutch

Doors operate on concealed hinges that permit 110° throw and are equipped with a self-closing spring device. Hutch mounts on desk, return or credenza without mechanical fasteners; Velcro® strips keep hutch in place. Inside height 12 1/2". Hutches come open or closed in two heights: 38" or 42". Closed hutches are available with a choice of two types of doors: wood or with a glass panel set in a wood frame. Glass doors come standard in a glazed finish and optional in clear at no extra cost. Please specify when

ordering.

The 42" hutch unit offers two options: one adjustable shelf per section or with pigeonholes. Both shelves and the bottom of each hutch are predrilled for wire dividers.

Hutch placed over desk or credenza will be a total of 67" or 71" high: approximately 1 3/16" lower than the 68" and 72" high components.

When a hutch is placed over units or desk return combinations with a B, C, K, N, R or S edge detail, the hutch must be ordered 2" shorter than the units on which it will be placed to allow for the radius or bevel on the edge detail. For further assistance, contact the Standard Desk Customer Service Department.

N.B. To protect surface finish, avoid leaving items made of soft plastic, vinyl or rubber in prolonged contact with furniture as they may cause a chemical reaction that results in a discolored or marred finish.

Ordering Instructions

Using the codes system
All our items feature a coding system based on a principle you will find throughout our entire product offering. Using one example: _/SPR 7236 CO/_

The line prefix code is supplied at the top of each price column: code 06 stands for Passport, code 20 is for Accent1 and code 22 stands for Accent 2. Edge details are available on page 4 with the corresponding pictures, as well as finish numbers on page 5.
